

ROMRADIATOARE S.A. Brasov: invitation to submit offers for the supply of one automated forming machine for aluminum fins for heat exchangers

Brasov, 22nd of July 2015

ROMRADIATOARE S.A. announces the launch of a call for offers for the supply of one **automated forming machine for aluminum fins for heat exchangers**, as part of the *Green Business Development for Increased Competitiveness* project, supported by a grant from Norway through the Norway Grants 2009-2014, in the frame of Green Industry Innovation Programme Romania.

The contract objective is the supply of 1 (one) automated forming machine for aluminum fins for heat exchangers (star type roller), CPV code 42633000-2 (Bending, folding, straightening or flattening machines), delivered at ROMRADIATOARE S.A., Zizinului Street 113A, 500407, Brasov, Romania, delivery condition CIF or DDP as per Incoterms 2010.

The machine should include specific tooling for producing the wavy aluminum fin models as per the drawings provided by ROMRADIATOARE, in Appendix 1.1 to these instructions (Drawing number NFR-368A_9 and NFR-368A_12, "Wavy fin").

The below characteristics are MANDATORY for the machine to be offered and supplied:

- Fin forming according to the fin drawings provided (Drawing number NFR-368A_9 and NFR-368A_12, "Wavy fin") – two sets of specific tools included
- Aluminum strip thickness: from 0.14mm to 0.20mm
- Fin height = 9, 12mm (changeable) ;
- Fin width (min 30mm – max 300mm)
- Minimum production speed (for fin model provided) = 2.65 m/min for 9 mm height of fin
- Fin strip decoiler included
- Supply voltage 380v/50Hz
- Minimum 12 months warranty

Only offers for new equipment will be accepted, which meets the technical specifications detailed in the instructions to participants. The call for offers is open to all interested operators, both from Romania and from abroad, who meet the conditions and requirements detailed in the specifications and instructions. Offers submitted should be valid for at least 45 days. The machine has to be delivered in maximum 150 days from contract award.

Complete technical specifications, together with the rules of the procurement procedure and the minimum conditions that must be met by the bidders, can be downloaded from the company website www.romradiatoare.com, "PROJECT NORWAY GRANTS " section. The deadline for submitting the bids (on paper or electronically at the address indicated in the instructions for participants) is 03rd of August 2015. The contract will be awarded to the most economically advantageous offer. The evaluation grid is included in the instructions for tenderers available on the company's website, at the above-mentioned address.

The Green Industry Innovation Programme for Romania will contribute to the overall objective of the Norwegian Financial Mechanism 2009-2014 which is reduction of economic and social disparities in the European Economic Area (EEA) and to strengthen the bilateral relations between Norway and Romania. The objective of the Programme is to increase competitiveness of green enterprises, including greening of existing industries, green innovation and green entrepreneurship. The programme strategy is in line with Romanian national policies. The expected outcome of the Programme is realisation of business opportunities of greening the European economy. The Green Industry Innovation Programme for Romania is a business development programme and the Programme vision is: Good for Business and Good for Environment. All supported projects should aim at a final result of improving the environment performance of enterprises. The Green Industry Innovation Programme for Romania is operated by Innovation Norway, a public company owned by the Norwegian Ministry of Trade, Industry and Fisheries and all the Norwegian County Municipalities. More information about the programme can be found at www.norwaygrants-greeninnovation.no

*Through the **Norway Grants** and EEA Grants, Norway contributes to reducing social and economic disparities and to strengthening bilateral relations with the beneficiary countries in Europe. Norway cooperates closely with the EU through the Agreement on the European Economic Area (EEA). For the period 2009-14, Norway's contribution is €1.7 billion. Grants are available for NGOs, research and academic institutions, and the public and private sectors in the 12 newest EU member states, Greece, Portugal and Spain. There is broad cooperation with Norwegian entities, and activities may be implemented until 2016. Key areas of support are environmental protection and climate change, research and scholarships, civil society, health and children, gender equality, justice and cultural heritage.
