

ROMRADIATOARE S.A. BRASOV: INVITATION TO SUBMIT OFFERS FOR THE SUPPLY OF CNC PRESS BRAKE FOR BENDING OF SHEET METAL PARTS

Brasov, 28 December 2015

ROMRADIATOARE S.A. announces the launch of a call for offers for the supply of one CNC press brake for bending of sheet metal parts, as part of the Green Business Development for Increased Competitiveness project, supported by a grant from Norway through the Norway Grants 2009-2014, in the frame of Green Industry Innovation Programme Romania.

The contract objective is the supply of 1 (one) CNC PRESS BRAKE FOR BENDING OF SHEET METAL PARTS, CPV code 42632000-5 (Numerically-controlled machines for metal), delivered at ROMRADIATOARE S.A., Zizinului Street 113A, 500407, Brasov, Romania, delivery condition CIF or DDP as per Incoterms 2010. The machine should include one complete set of tools for minimum 1200 mm length.

The below characteristics are MANDATORY for the machine to be offered and supplied: CNC control of axes, with servomotors; Active bending length – minimum 1200 mm; Bending force – minimum 40 tones; Working speed on Y axis – minimum 12 mm/sec; X axis range – minimum 500 mm; Intuitive 3D controller with simulator and collision detection capability; Possibility to import DXF/DWG files; Possibility to work with tool libraries, and select appropriate tools based on the part to be bent; Operator protection system with photocell; Drive pedal; "Euro style" tool fixing system; Minimum one set of tools to be included – for minimum 1200 mm; Touch color display, minimum 15 inch, USB port and serial RS232 and/or RS422; Minimum 12 months warranty

The machine should be CE certified and comply with current health and safety requirements on the EC directives. Only offers for new equipment will be accepted, which meets the technical specifications detailed in the instructions to participants. The call for offers is open to all interested operators, both from Romania and from abroad, who meet the conditions and requirements detailed in the specifications and instructions. Offers submitted should be valid for at least 45 days. The machine has to be delivered in maximum 60 days from contract award.

Complete technical specifications, together with the rules of the procurement procedure and the minimum conditions that must be met by the bidders, can be downloaded from the company website www.romradiatoare.com ,"PROJECT NORWAY GRANTS" section. The deadline for submitting the bids (electronically at the address indicated in the instructions for participants) is 11th of January 2016, local time 12:00 (noon). The contract will be awarded to the most economically advantageous offer. The evaluation grid is included in the instructions for tenderers available on the company's website, at the above-mentioned address.

The Green Industry Innovation Programme for Romania will contribute to the overall objective of the Norwegian Financial Mechanism 2009-2014 which is reduction of economic and social disparities in the European Economic Area (EEA) and to strengthen the bilateral relations between Norway and Romania. The objective of the Programme is to increase competitiveness of green enterprises, including greening of existing industries, green innovation and green entrepreneurship. The programme strategy is in line with Romanian national policies. The expected outcome of the Programme is realisation of business opportunities of greening the European economy. The Green Industry Innovation Programme for Romania is a business development programme and the Programme vision is: Good for Business and Good for Environment. All supported projects should aim at a final result of improving the environment performance of enterprises. The Green Industry Innovation Programme for Romania is operated by Innovation Norway, a public company owned by the Norwegian Ministry of Trade, Industry and Fisheries and all the Norwegian County Municipalities. More information about the programme can be found at www.norwaygrants-greeninnovation.no

*Through the **Norway Grants** and EEA Grants, Norway contributes to reducing social and economic disparities and to strengthening bilateral relations with the beneficiary countries in Europe. Norway cooperates closely with the EU through the Agreement on the European Economic Area (EEA). For the period 2009-14, Norway's contribution is €1.7 billion. Grants are available for NGOs, research and academic institutions, and the public and private sectors in the 12 newest EU member states, Greece, Portugal and Spain. There is broad cooperation with Norwegian entities, and activities may be implemented until 2016. Key areas of support are environmental protection and climate change, research and scholarships, civil society, health and children, gender equality, justice and cultural heritage.
