

INVITATION TO SUBMIT OFFERS FOR SIZING, SPECIFICATION, SUPPLY, INSTALLATION AND COMMISSIONING OF THREE FILTRATION AND EXHAUST EQUIPMENT FOR GASES GENERATED DURING Sn SOLDERING, ALUMINUM BRAZING AND STEEL WELDING

Brasov, 15th of January 2016

ROMRADIATOARE S.A. announces the launch of a call for offers for sizing, specification, supply, installation and commissioning of three filtration and exhaust equipment for gases generated during Sn soldering, aluminum brazing and steel welding, as part of the *Green Business Development for Increased Competitiveness* project, supported by a grant from Norway through the Norway Grants 2009-2014, in the frame of Green Industry Innovation Programme Romania.

The objective of the contact is the sizing, specification, supply, installation and commissioning of three filtration and exhaust equipment for gases generated during Sn soldering, aluminum brazing and steel welding. The offered equipment must ensure the evacuation of smoke and residues generated during welding and brazing processes and it must filter emissions. The equipment should be CE certified and comply with current health and safety requirements on the EC directives. Only offers for new equipment will be accepted, which meets the technical specifications detailed in the instructions to participants. Models offered must not be older than three years. The call for offers is open to all interested operators, both from Romania and from abroad, who meet the conditions and requirements detailed in the specifications and instructions. Offers submitted should be valid for at least 45 days. The equipment has to be delivered in maximum 45 days from contract award.

For correct informations, we invite suppliers to visit our company for identifying, sizing and evaluating of the specific requirements. To do so, interested parties should contact us in order to schedule an official visit to our production facility. Visitation period is 15th - 26th of January 2016.

Complete technical specifications, together with the rules of the procurement procedure and the minimum conditions that must be met by the bidders, can be downloaded from the company website www.romradiatoare.com, "PROJECT NORWAY GRANTS" section. The deadline for submitting the bids (electronically at the address indicated in the instructions for participants) is 5th of February 2016, local time 12:00 (noon). The contract will be awarded to the most economically advantageous offer. The evaluation grid is included in the instructions for tenderers available on the company's website, at the above-mentioned address.

The Green Industry Innovation Programme for Romania will contribute to the overall objective of the Norwegian Financial Mechanism 2009-2014 which is reduction of economic and social disparities in the European Economic Area (EEA) and to strengthen the bilateral relations between Norway and Romania. The objective of the Programme is to increase competitiveness of green enterprises, including greening of existing industries, green innovation and green entrepreneurship. The programme strategy is in line with Romanian national policies. The expected outcome of the Programme is realisation of business opportunities of greening the European economy. The Green Industry Innovation Programme for Romania is a business development programme and the Programme vision is: Good for Business and Good for Environment. All supported projects should aim at a final result of improving the environment performance of enterprises. The Green Industry Innovation Programme for Romania is operated by Innovation Norway, a public company owned by the Norwegian Ministry of Trade, Industry and Fisheries and all the Norwegian County Municipalities. More information about the programme can be found at www.norwaygrants-greeninnovation.no

Through the Norway Grants and EEA Grants, Norway contributes to reducing social and economic disparities and to strengthening bilateral relations with the beneficiary countries in Europe. Norway cooperates closely with the EU through the Agreement on the European Economic Area (EEA). For the period 2009-14, Norway's contribution is €1.7 billion. Grants are available for NGOs, research and academic institutions, and the public and private sectors in the 12 newest EU member states, Greece, Portugal and Spain. There is broad cooperation with Norwegian entities, and activities may be implemented until 2016. Key areas of support are environmental protection and climate change, research and scholarships, civil society, health and children, gender equality, justice and cultural heritage.
